Securing Your Values

MOI - SSD APPROVED CCTV SOLUTIONS PROVIDER

<https://www.visionqatar.net>

Vision Technical Solutions is dedicated to delivering the most advanced and up-to-date security solutions in today's dynamic technological environment. By continuously adapting to emerging innovations, we ensure our clients benefit from reliable, future-ready systems.

Our extensive portfolio features state-of-the-art surveillance and security brands, offering integrated solutions in Video Surveillance, Access Control, IT Infrastructure, and Fire Detection Systems. In addition, we provide comprehensive CCTV services, including preparation of Ministry of Interior (SSD) design and inspection approval documentation, online submission through our dedicated portal, system deployment, inspection, monitoring, and responsive support.

With expertise across diverse applications and environments, Vision Technical Solutions stands as a trusted partner, committed to safeguarding assets and ensuring compliance through innovation, quality, and excellence.

what we do

SURVEILLANCE SYSTEM SOLUTIONS

As an MOI - SSD approved CCTV contractor, we provide surveillance solutions as per the SSD department of Ministry of Interior's (MOI) regulations. Surveillance systems solutions that we provide cover IP Surveillance, Analog Surveillance, Storage Solutions, Video door, and Building Management systems. Our services include the design of the aforementioned surveillance systems and obtaining approval from the SSD department of MOI.

ACCESS CONTROL AND ELECTRONIC GATE BARRIERS

We supply, install, and provide support for access control systems and electronic gate barriers so that access is only available for authorized personnel. Our person verification solutions include Biometric systems, ID card systems, and Keypad systems, as required by our client's requirements.

FIRE SOLUTIONS

We provide conventional and addressable Fire detection solutions along with fire fighting and alarm systems with the approval from the Qatar Civil Defence.

IT INFRASTRUCTURE SOLUTIONS

We provide competent and comprehensive solutions consistent with industry-standard frameworks to manage our customer's passive IT Infrastructure requirements. Our services consist of Hardware Networking, Voice Networking (IP Telephony) and Structured Cabling Solutions, such as optical fiber cabling, Voice/Data cabling, and Fluke testing.
